

Group A: Registration

Set up a registration desk inside for a SoSOL event with courses white, yellow, orange, light green, green, blue, brown.

Use flip chart paper/pens to make posters if the equipment is not available.

You need to explain a suitable sequence for:

- Taking money.
- Taking names against the course chosen.
- Taking other information about the competitors.
- What else may you need to give the competitors?

What questions may the competitors ask? What answers will you need to be able to give?

Group B: Start

Set up a start for a SoSOL event with courses white, yellow, orange, light green, green, blue, brown

There will be 3 helpers available to run the start during the competition.

- Where will you need to deploy helpers?
- What jobs will they have?
- What might they have to say to competitors?
- What questions may the competitors ask? What answers do you need to be able to give?

Group C: Finish & Download

Set up a finish & download for a SoSOL event with courses white, yellow, orange, light green, green, blue, brown

There will be 3 helpers available to be at the finish & download from the first start time to the course closure time:

- How will you deploy the helpers?
- What might they have to say to competitors?
