SOA Challenge 1

Mapping – Teddy Town

Shown below is "Teddy Town". Draw a map of this town and then show an orienteering course on the map where Teddy starts from his house (where he currently is), then goes to the tree at the north end of the park, to the shop, then the school and then to Granny's House (the house with flowers round the door).

Can you build your own Teddy Town and draw a map of it? Or map your room? Or map your garden?
