

SOA Puzzle 25

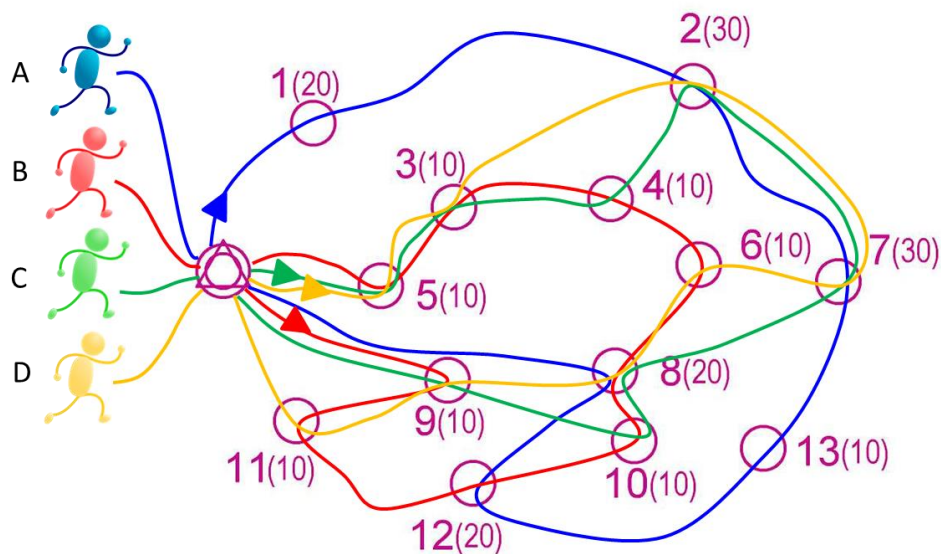

Score Points

Ailsa, Bruce, Catriona and Douglas were competitors at a Score event - the sketch map shows the routes they took. Each control is numbered and the number in brackets shows the points for that control. The time limit for the event was 30 minutes, with a 1 point penalty for each 6 seconds late (e.g. 5 secs = minus 1 point; 7 secs = minus 2 points).

Their times were as follows:

| | |
|--------------|-------|
| Ailsa (A) | 32:05 |
| Bruce (B) | 28:20 |
| Catriona (C) | 30:10 |
| Douglas (D) | 29:50 |

1. Who visited most controls?
2. Who scored the most points?
3. Whose final score was highest?

Thanks to Sally Lindsay from ESOC for this puzzle.
