

SOA Challenge 7

Map Stars

1. You will need 6 equal sized squares cut from maps.
2. Fold each of the squares in half along the diagonal. Cut slits into the folded square as shown (dashed lines). 4 or 5 slits depending on the size of square.
3. Open out the square. Roll the two smallest flaps in the centre together and fasten together - you can use glue, tape or staples. Turn over and roll the next two flaps to the other side and glue them together. Turn back to the original side and fasten the next 2 flaps together. Repeat until all the flaps are fastened on alternating sides.

4. Repeat with the other 5 squares.
5. Lay the 6 parts in a row ensuring that they are all facing the same direction. Glue the 6 parts together on the joins of the folds.

6. Gather 3 of the petals and fasten together at one end. Repeat with next 3.

7. Fasten the 1st petal to the 6th.
