

SOA Puzzle 52

Tour of Scotland - Auchingarrich

North, South, East or West?

The 16 squares of map are all in the correct locations but some of the squares have been rotated to the East, West or South. Can you work out the direction of rotation of each?

Auchingarrich provides a mix of plantation forest, with an intricate network of rides, and technically detailed open hillside, as well as faster running on the fields and woodland to the north. It is physically and technically very challenging - as many who competed at the Scottish 6 Days 2019 will attest.

Thanks to Tayside Orienteers for the use of the map.
