

We want to
go
orienteering

Let's Get Started Orienteering

Part 1 Maps

A cartoon illustration of a boy with brown hair, wearing a blue shirt and blue shorts, standing with his arms outstretched.

**We need a
map.**

A cartoon illustration of a girl with black hair, wearing a green shirt and a red skirt, standing with her arms outstretched.

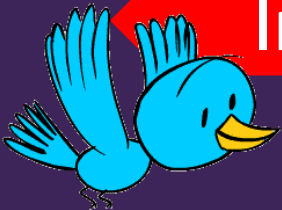

**What is a
Map?**

A picture of the real world but drawn on paper

**It uses colours and symbols to represent
things in the real world**

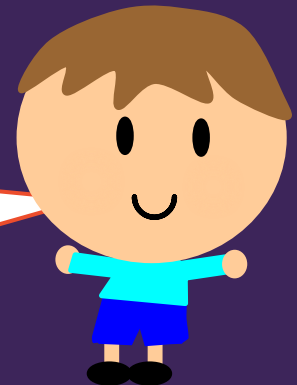

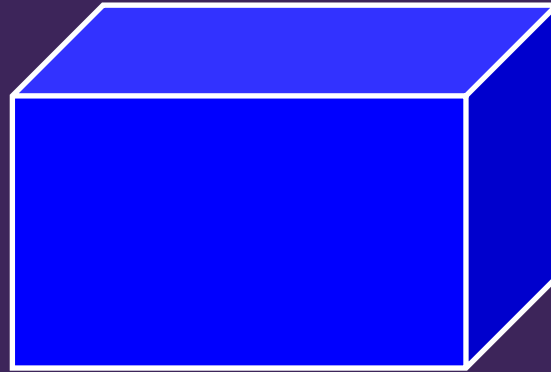

It is drawn as if you are looking down from above

Imagine you are a bird flying over looking down

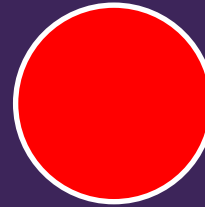

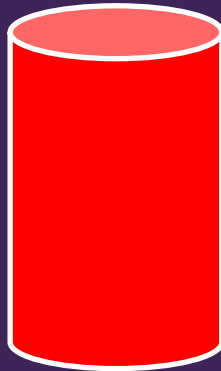

Mapping Shapes

What would this shape look like from above?

What would this shape
look like from above?

What if it was lying
on its side?

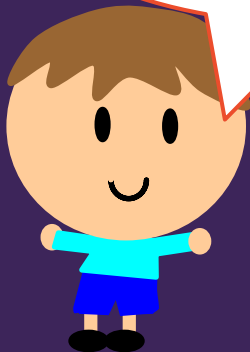

Mapping Shapes

What would this shape look like from above?

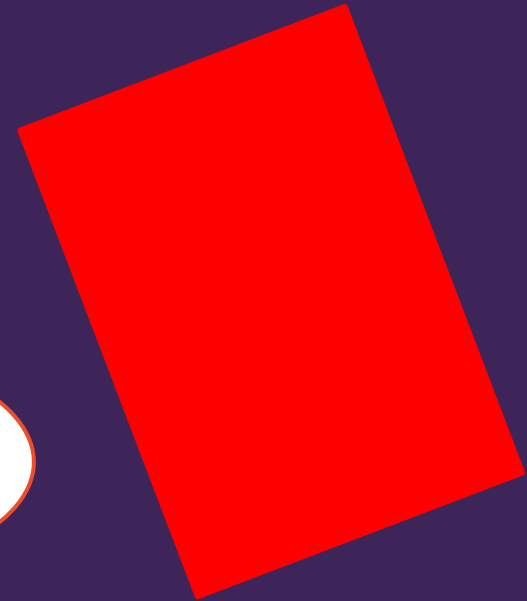

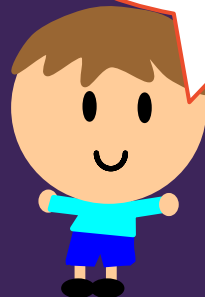

**I know!
I know!**

A house from above?

Easy!

Symbols

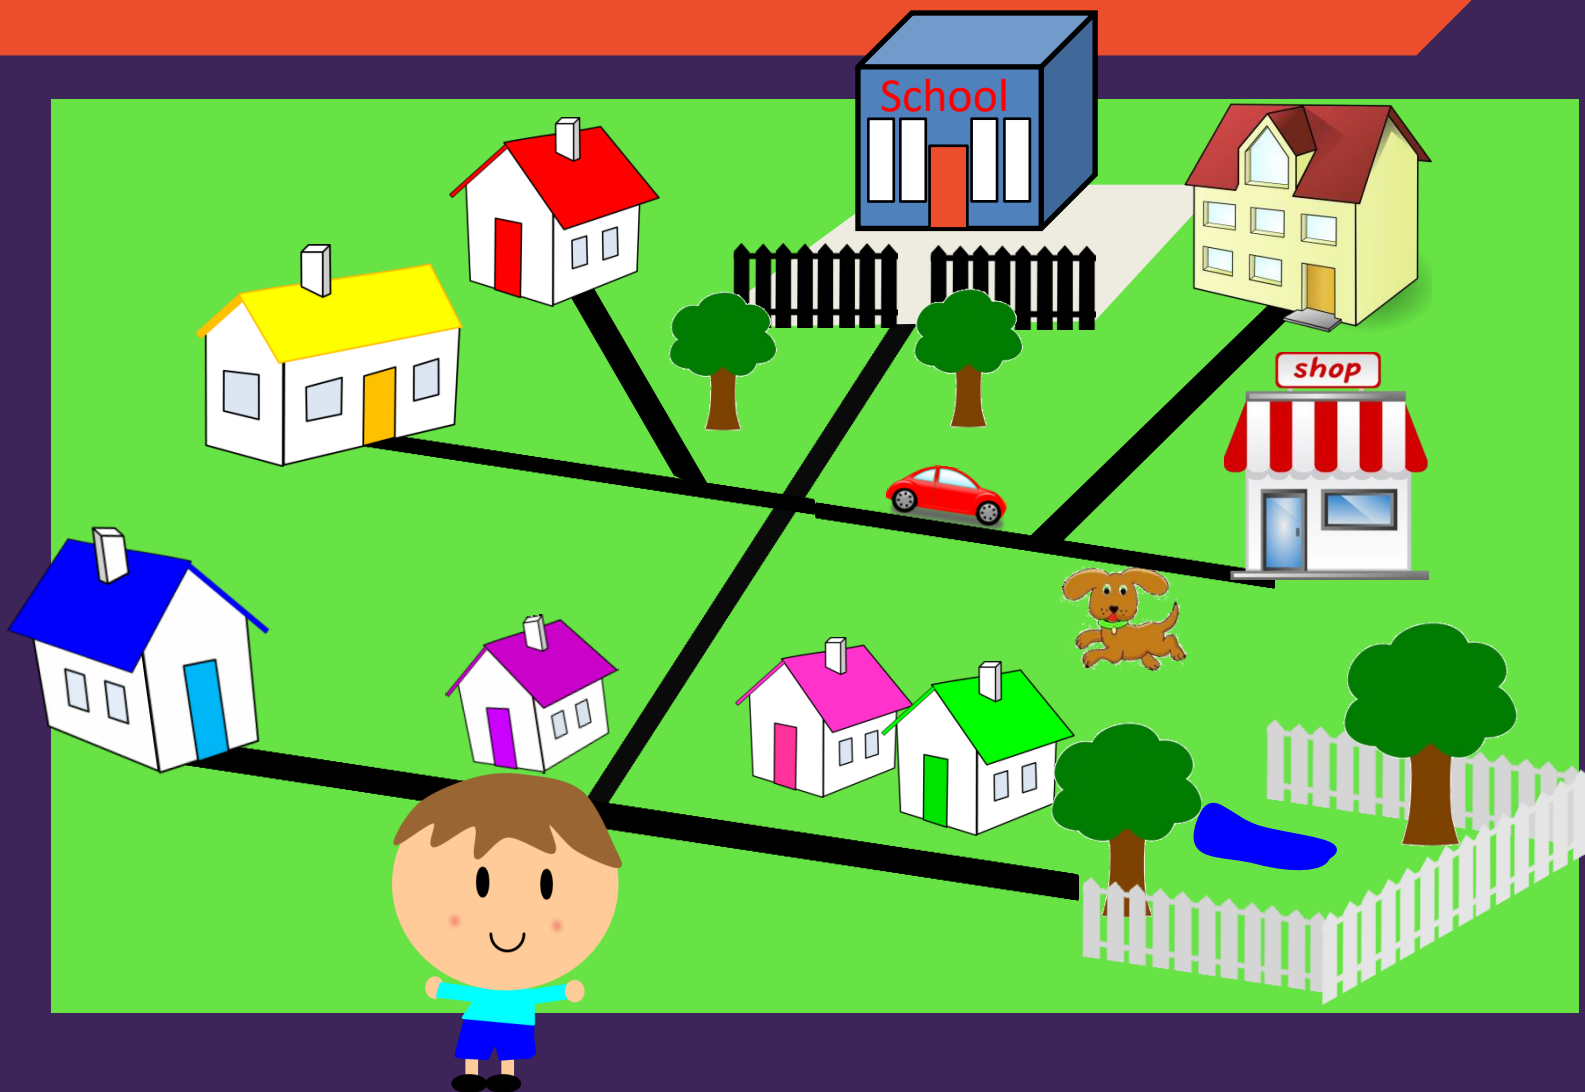

Some items might be easier to show with a symbol.

You can make up your own symbols

Your map will need a key to tell others what the symbols mean

Example - Draw a Map of our Town

Remember !

What things look like from above

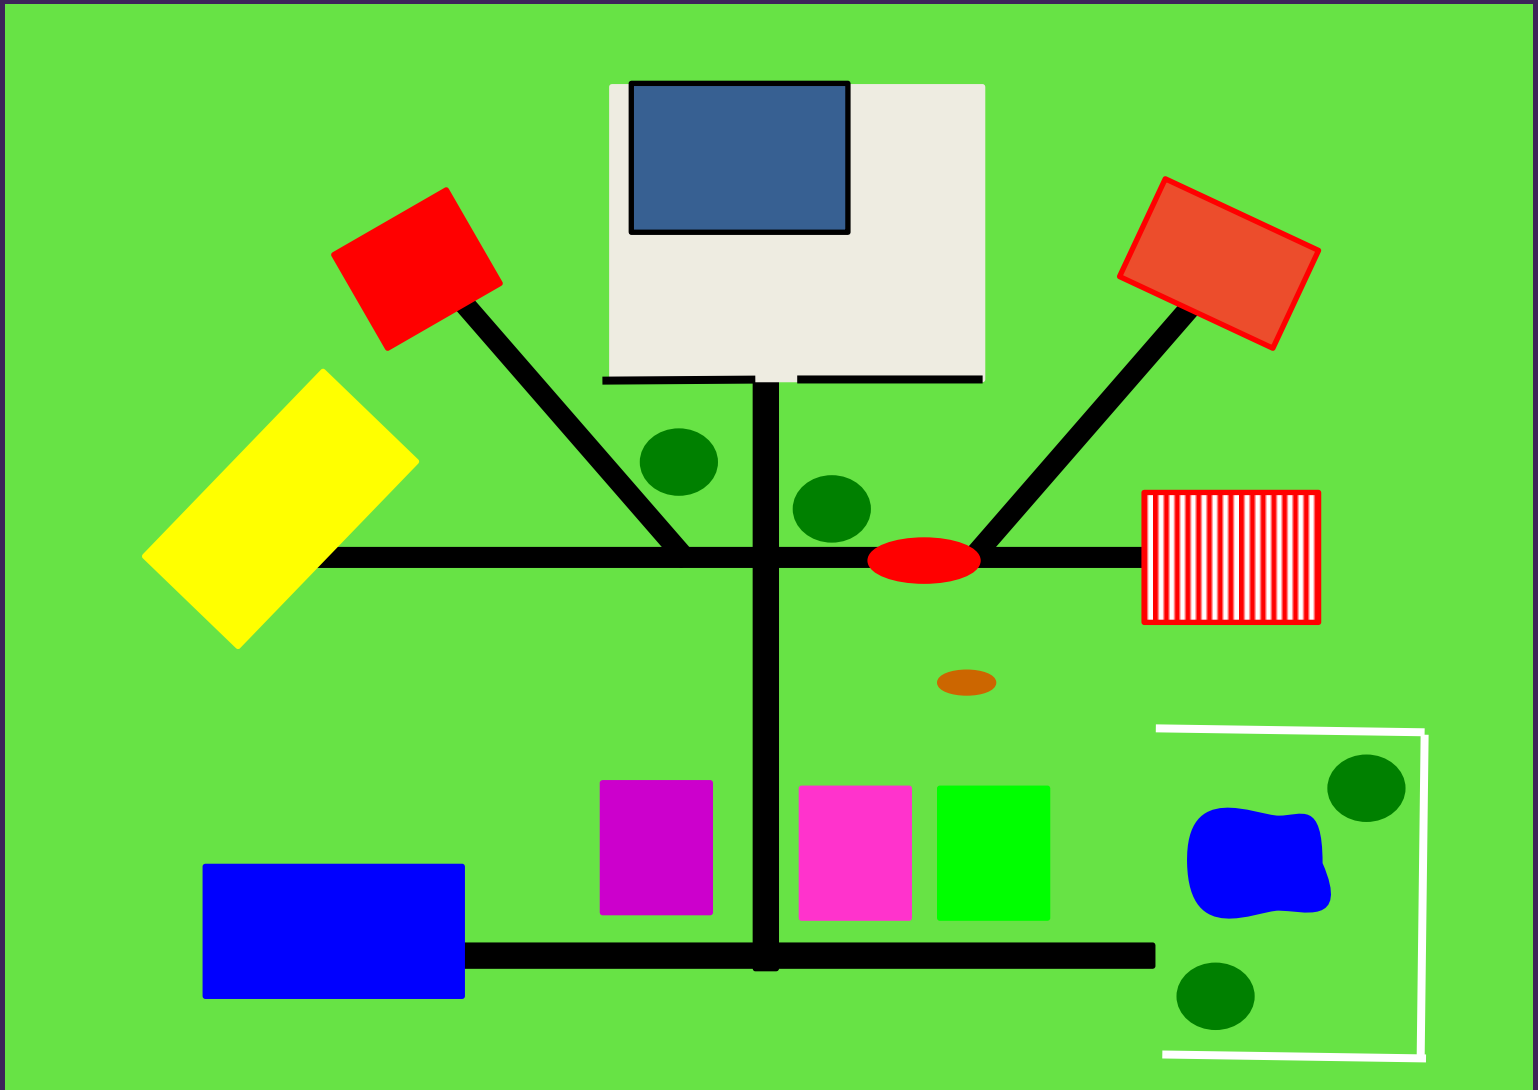

Use symbols

Add a key to tell others what the colours
and symbols mean

Only map things which are always there and
not moving

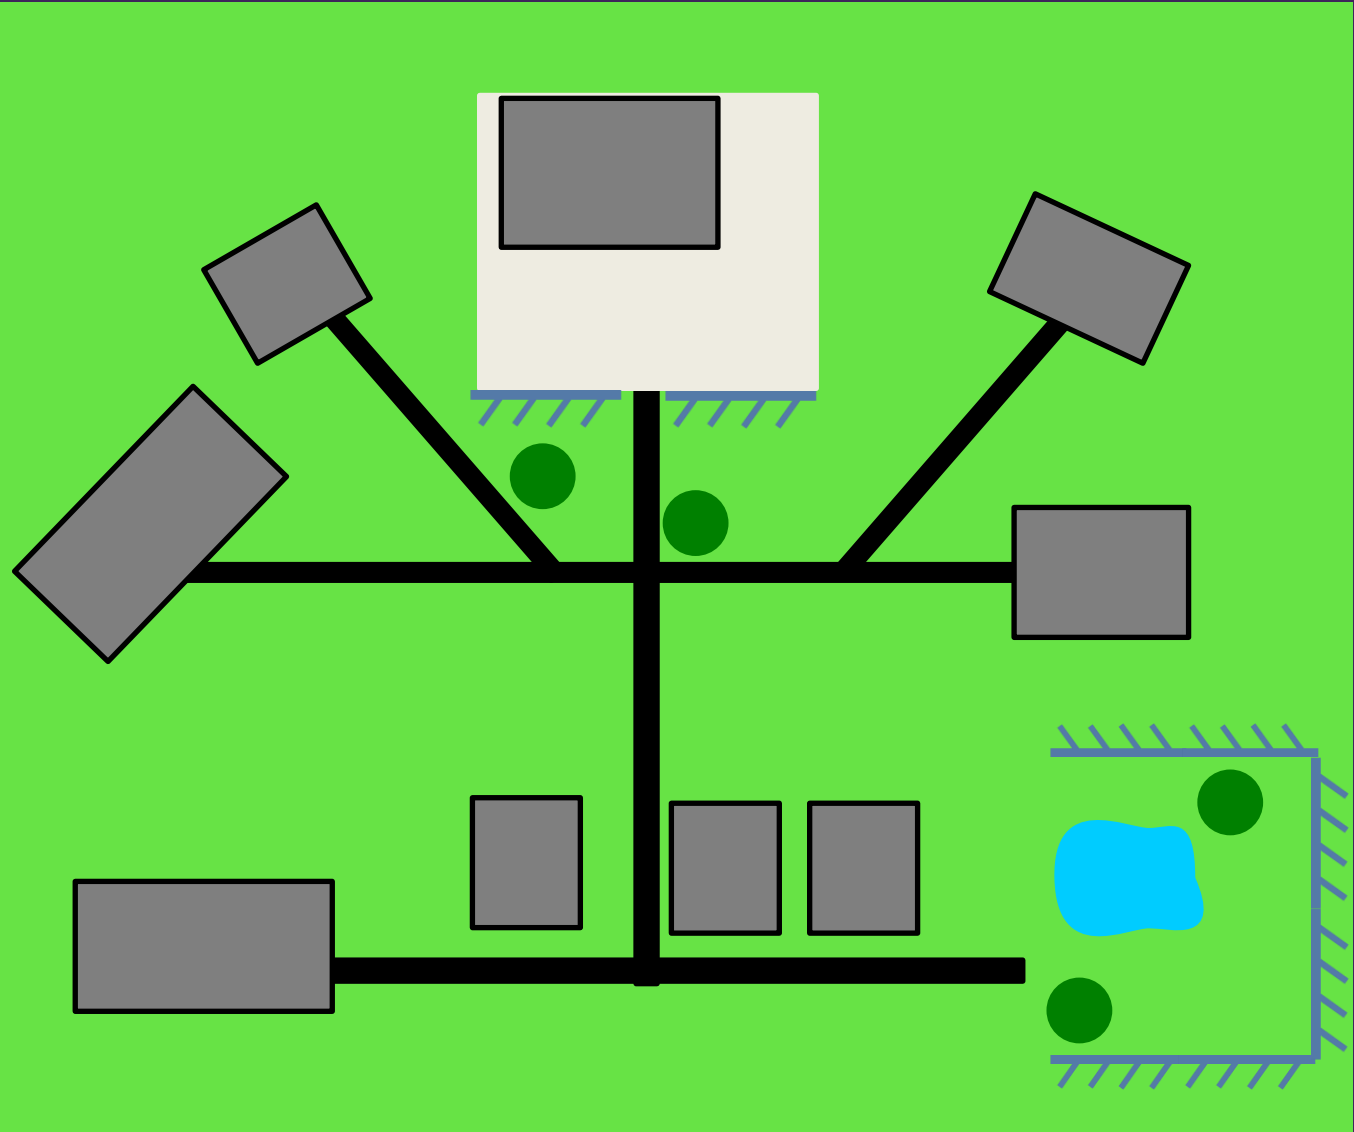

View from above

The Completed Map

-  Building
-  Paving
-  Water
-  Grass
-  Tree
-  Road
-  Fence

The Key

Activity: Draw a map of your room or garden
