Runners who spend more time elsewhere in the UK may ask that their results in other events, of a similar standing, be taken into account. The Selectors hope to have made all their decisions about Team and Reserves before 31st May 2026 .

The British Long is rather far away this year; hence two SOL events have been included.

If any competitor wishing to be considered for the team has missed one or more races, has competed elsewhere in a race of similar standing , or has performed poorly due to injury or illness, but considers that they will be back on form by September, that person should contact Janice Nisbet, so that the selectors can take this into account.
