

<i><b>ORGANISER</b></i>	<i><b>PLANNER</b></i>	<i><b>CONTROLLER</b></i>
DO THE RISK ASSESSMENT	PRODUCE ALL CONTROLS MAP	TELL START TEAM COMPETITORS CAN START
DECIDE IF WEATHER FORCES EVENT CANCELLATION	CHOOSE STRING COURSE LOCATION	COUNTERSIGN RISK ASSESSMENT
ARRANGE SEARCH FOR MISSING COMPETITOR	SYNCHRONISE SI TIME CLOCKS	CHECK CONTROLS ARE CORRECTLY PLACED
SET UP START	TAPE DANGEROUS CLIFF	
SET UP FINISH	TAG SITES FOR WALL/FENCE CROSSINGS	
RESPOND TO A COMPLAINT ABOUT CONTROL SITING	ARRANGE CONTROL COLLECTION	
	PUT OUT START/FINISH SI BOXES	
TAPE OOB AREAS		NB some taping may be in the competition area, some elsewhere eg on way to start.
PUT OUT WATER AT DRINKS CONTROL		The drinks control is the responsibility of the planner but s/he may not have time to move water
BUILD STILES FOR WALL/FENCE CROSSINGS		The planner will 'tag' the sites for stiles but may delegate the construction, though some planners may want to!

These are suggested answers. Inevitably there will be some discussions and participants will know that in their clubs some tasks are delegated. However, it is necessary for people to understand who has the responsibility to see that a particular job gets done. The discussions will help participants to understand 'who does what' and that there must be interaction / communication as in the learning outcome for this section of the programme.
